Spadea MYCO G

FEED EFFICIENCY

Your DIET solution to FIGHT MYCOTOXINS RISKS

Spadea MYCO G

THE RISK FACTORS IN BREEDING

Irregular ingestion and production

Health and reproductive disorders

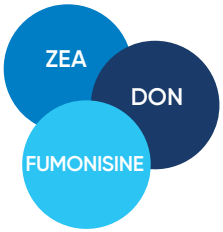

Liver dysfunction

Poor feed efficiency

MODE OF ACTIONS

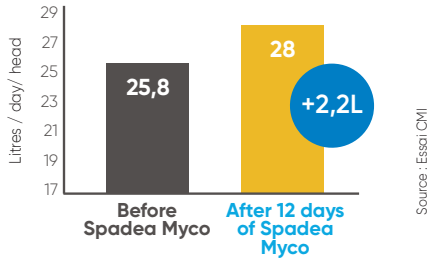

REDUCED RISK OF MYCOTOXINS

Myco core:
Synergism actions for mycotoxin reduction.

IMPROVE RUMINAL FUNCTION

Rumen core and Flora core:
Improvement of ruminal function thanks to :
- Flora stimulation
- Buffer effect
- Better digestibility

LIVER DETOXIFICATION

Myco core:
Contains a plant extract naturally rich in silymarin recognized:
- Detoxifying for the liver
- Anti-oxidant: strengthens the immune defences.
